Release One

AUTHENTICATION

Users are able to login to accounts with appropriate functionality. Restaurants can add menu items, customers can order, and drivers can update deliveries.

ECO PACKAGING

Restaurants can choose if their packaging is reusable, minimal, or compostable, and customers can use that information to inform their eco-friendly selections.

GROUP ORDERS

Customers can opt-in to having their order combined with a neighbor or coworkers order to reduce packaging and waste.

SEASONAL MENU

When adding items to their menu, restaurants can highlight an item as seasonal and customers can earn points for ordering seasonal items.

Group 26

Madison Book, Cynthia Espinoza-Arredondo, Alice Guth, Griffin Pitts

The screenshot displays the EcoBites user interface. At the top, the 'IMPACT VIEW' section greets the user 'Hi griffin, here is your impact' and shows an 'ECO REWARD BALANCE' of 0 points. Below this, the 'PACKAGING PREFERENCE' section allows users to 'Choose how your meals arrive' with three options: 'Reusable Kit' (marked with a red 'R'), 'Compostable' (marked with a green checkmark), and 'Minimal' (marked with a blue 'M'). The 'IMPACT OVERVIEW' section at the bottom shows 'Your sustainable choices add up' with three metrics: 'CO₂ AVOIDED' (0.54 kg), 'WATER SAVED' (6.7 L), and 'PACKAGING AVOIDED' (36 g).

Release Two

POINTS AND REWARDS

Users are able to earn points for choosing more environmentally friendly dishes, packaging, or delivery vehicles. Earning points leads to \$5 off rewards.

CANCELLED ORDERS

Users and restaurants are able to cancel orders they are no longer able to pick up or fulfill. In the future, orders that are not picked up could be bid for by other users.

RATINGS AND REVIEWS

Customers can add 1 - 5 star ratings and text reviews to restaurants in the system. The number of reviews and average star rating of the restaurant is displayed.

ECO-DASHBOARD

Users can track their environmental impact, including avoided CO₂ emissions, water usage, and disposable packaging.
